

A white-label that enables any institution, university, or K-12 school to create a **BRANDED index of Online Virtual and Personalized courses**

White-Labelled site puts your learning in your hands. Our work-at-your-own-pace courses are designed for the business of life. Unlike other universities, at this University, you pay for the courses you want to take and will not be bombarded by frivolous elective courses that hold no real significance in achieving your goal. We invite you to explore our site, and we look forward to help you kick start your career.

1. K-12 Courses

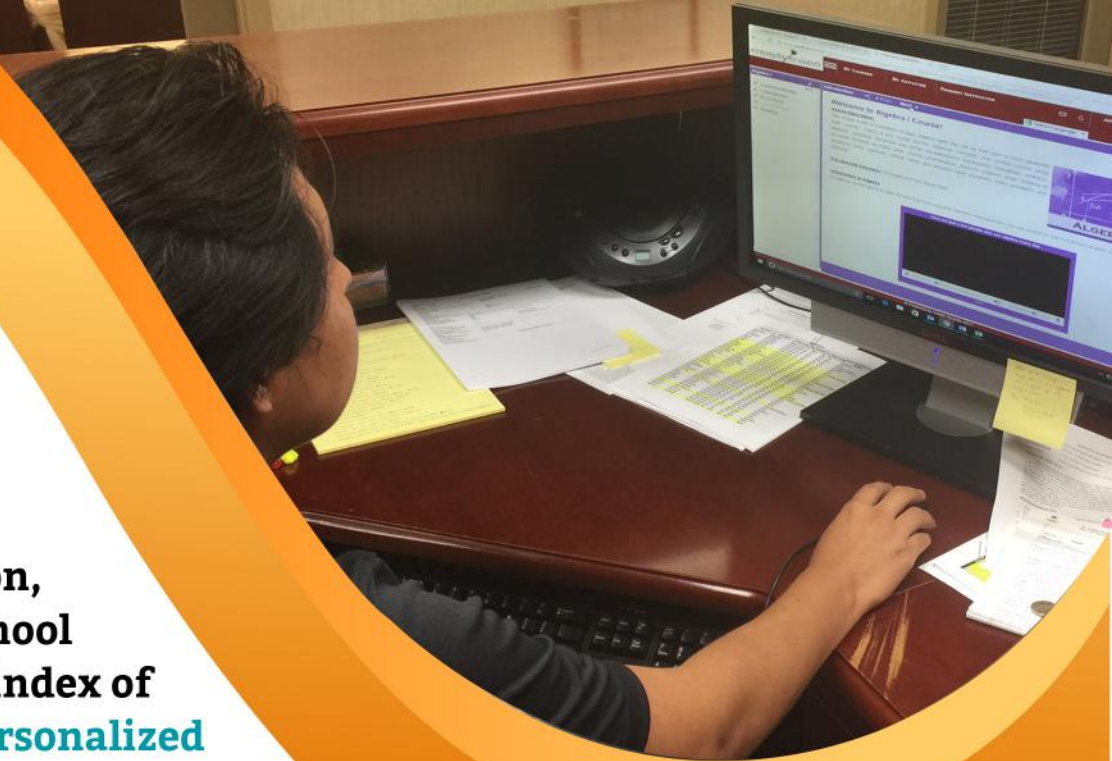

Grade Results will customize courses and follow client's specifications and curriculum calendar. The course descriptions may vary depending on specific state standards.

1. Core Subjects (Math, ELA, Science, and Social Studies)
2. Elective Subjects (State Aligned Electives, Health & PE, Career and Technical Education, Fine Arts, & Business Electives)
3. World Languages

2. Test Prep Courses (ACT, SAT, GED, WorkKeys, State Test Preps, etc.,)

Grade Results offers extensive support to students preparing to take state and national tests. The process begins by taking a pre-assessment to determine areas of challenge. A prescriptive learning plan, with accompanying lessons, is created, allowing the individual to work through self-directed lessons. On-going assessments are incorporated throughout the lessons, which help determine mastery level. The student will have access to a live instructor to provide clarification or additional instructional support.

3. Dual Credit Courses: This allows students the opportunity to earn high school and college credit, challenge themselves academically, and prove to universities that they can perform college-level work. Students can jumpstart their college careers to save both time and money.

Portfolio:

CREDIT RECOVERY

Boost Program is one of our most successful solution with success stories and proven results across the United States and worldwide.

CREDIT ACCRUAL

We provide comprehensive virtual courses for core and elective middle/high school subject areas for students to accrue credit.

BENCHMARK TESTING

We offer benchmark assessments, used to track grade level mastery and to assess end-of-year outcomes.

BLENDED LEARNING

Our platform uses its cutting-edge Learning Management Software (LMS) to accommodate blended learning.

DROP BACK IN

Students will be recruited from every area of the city/school district to bring them back to school to earn a high school diploma through an accelerated high school learning community.

4. Career Technical Education: Career Technical Education (CTE) courses are standards-aligned curriculum in middle and high school in 23 career clusters.

5. Certification Courses: We offer a variety of certification courses that sets high-school graduates and older adults on the path to success. There are several fields available which include technology and humanities certification courses.

We combine powerful content, dynamic live instruction, and unparalleled technology to enhance the performance of students. With the combination of on-demand one-to-one online live instruction and self-paced interactive content, essay review, and asynchronous messaging of instructors, students can access a wide variety of content and support, whatever the schedule, learning style, or specific need they may have.

ENRICHMENT

We provide enrichment to all students and may be specifically assigned to gifted and talented students, giving them additional opportunities/ activities to expand and enhance learning.

GRADE RECOVERY

We provide students online curriculum at the middle or elementary school level for students who have fallen behind their peers academically. This opportunity allows the students to regain their grade level status.

REMEDIATION

We offer individualized online content and on-demand, live instructors. The students will receive supplemental, targeted standards-based content custom tailored to the students' specific needs.

RIT

We are also proud to partner with NWEA™ MAP® assessment to help generate Individual-ized Learning Plans (ILP).

TEST PREP

TEST PREP – High-stakes assessments provide the data necessary to determine the educational future of students.

NCAA

Our curriculum and instructional model have been reviewed by NCAA and found to meet their requirements for online courses.

ADULT EDUCATION

Our curriculum is accredited and overaged students can be transferred and graduated. We offer courses in 23 career clusters for students from middle school to college.
